

Spa Village Malacca resides within The Majestic Malacca, a classic hotel set in a historical building with architectural influences drawn from the Portuguese, the Dutch and the Peranakan Chinese.

Every Spa Village is committed to honouring the healing cultures of the region in which it is located, and this is true for Spa Village Malacca. This unique two-storey spa is the world's first to base its therapies in the healing heritage of the Baba-Nyonya - a unique combination of Chinese and Malay influences.

This rich culture is reflected not only through the therapies, but also within the architecture of the spa, which provides an environment designed to capture the essence of the location.

In the relaxation lounge traditional Peranakan Chinese day beds are bathed in muted sunlight from floor to ceiling windows whilst six private treatment rooms exude refined luxury through finely detailed porcelain wall tiles, ornate silverware and intricate traditional wood carving.

Inspired by the elaborate and colourful 12-day Peranakan Wedding Ceremony, every guest enjoys a pre-treatment experience that includes a soothing hair care ritual that includes washing, combing and scalp massage.

Spa Village Malacca's therapies are molded around a person's cool or warm energies – based on Peranakan belief and inspired by Traditional Chinese Medicine. The various combinations of age-old traditional remedies sourced from indigenous ingredients, are believed to cleanse, replenish and reinvigorate, both physically and mentally.

The Malacca of today is a rich mélange of Dutch, Portuguese, Chinese, Indian and Malay influences that merge to create a fascinating and unique destination, unlike anywhere else on the globe. Spa Village Malacca offers guests a glimpse of this way of life, providing a spa experience that will be like no other.

### Warming Body Treatments

#### **NUTMEG-RICE ROLLING MASSAGE\***

Spasms occur when body muscles are tight and constricted for a long time. In traditional healing cultures, this painful spasmodic movement is traditionally referred to as 'wind' in the body. This treatment provides relief to individuals who experiences joint and backaches. Nutmeg and rice are massaged onto the body to jointly reduce aches and wind from the muscles.

#### **MALACCA PALM-SUGAR AND HONEY BODY SCRUB**

Malacca palm-sugar is made from the concentrated sap of coconut flowers. It is very rich in mineral salts and essential fatty acids. Honey is not only rich in minerals and vitamins but also in enzymes. These enzymes aid in healing skin tissue. When both Malacca palm sugar and honey are applied, it helps replenish the vitamins and minerals needed for healthy skin. This delicious body scrub is exceptionally good for dry skin.

#### **CAMPUR-CAMPUR\***

The name Campur-Campur means a blending of varieties in Malay. Combining the best techniques of Malay and Thai massage, this exclusive signature creation of Spa Village uses touch, tone and aromatherapy to give you a unique and memorable experience. The scent of lemon grass and pandan leaves fills the air as steamed herbs are pressed along the body using a traditional steam pouch.

#### **LAPIS-LAPIS – MALAY HERBAL WRAP\***

In this treatment, a fresh mixture of lemon grass, ginger, galangal, and camphor is applied to the body, which is then wrapped in warm sheets. This is an excellent precedent to a Thai or Malay massage. It helps to detoxify, reduce water retention and relieve joint and muscle pain.

## Cooling Body Treatments

### EGG ROLLING THERAPY

This body treatment is beneficial for stressed individuals who are sensitive to heat and prone to tight muscles and cramping. Hardboiled eggs when applied externally have special abilities to settle hyperactivity, calming the mind, settling cramping and swelling, and drawing out excess heat. In this treatment hard-boiled eggs are rolled onto the body followed by a massage.

### YOGHURT-GUAVA LEAVES BODY SCRUB

Similar to yoghurt, guava leaves have natural antibiotic properties. They also help in the efficient opening and closing of the skin's pores and heal stubborn rashes by extracting toxins. This unique combination of the antibacterial yoghurt and guava leaves is used as a body scrub to clean the body of impurities and leaves the skin soft and radiant.

### CUCUMBER ALOE WRAP

### BIRD'S NEST FACIAL WITH FERMENTED TAPIOCA MASK (WARMING)

Considered the "Caviar of the East", bird's nest is the dried saliva of a species of swifts found only in the coastal caves of South East Asia. This treatment is excellent for dry complexions as it replenishes facial nutrients and improves micro-circulation. The nutrients from the ingredients are easily absorbed into the skin, leaving it supple and glowing.

### BIRD'S NEST FACIAL WITH STAR FRUIT MASK (COOLING)
